SP-930

by ANSER CODING INC.

The No Maintenance Printer!

AFFORDABLE

ANSER™ SP-930 is the premium choice for small package coding application at an amazing low price. ANSER™ SP-930 ingenuity coupled with Hewlett-Packard proven high quality and reliable print engine ensures continual low cost of printing. SP-930 is a low price and practical printer with plenty features which will meet or exceed your expectation. It has the greatest value for your dollar.

EASY OPERATION & INSTALLATION

ANSER's Any-Body-Can-Do™ (ABCD) philosophy really stands out in our new SP-930 printer. The wireless Remote Control Keypad is operator friendly, easy to carry and operate just like your cellular phone. In addition, SP-930 allows you to input messages with any PC keyboard. No hassle, no sweat and no more questions. Installation is quick and easy, no experience necessary. You can be up and running within 20 minutes and be applying high quality images to your packages. It is like your office printer. Simply "Plug & Print". It's that easy!

MAINTENANCE FREE

SP-930 features a "Plug & Print" cartridge with a built-in Hewlett-Packard print engine. It is maintenance free for transactional and large-volume printing applications. The SP-930 is designed to meet today's most demanding industrial printing requirements, while delivering a level of seamless integration and reliability. It will reduce maintenance demands for its value-added end users and eliminate countless routine maintenance hours which translate into big savings and low cost of ownership. Moreover, no MEK solvent or detergent is required. SP-930 uses water based ink which is safe to use and environmentally friendly. No hazard, no flammable solvent and no odor.
